

PSYCH 1140 - Thesis statement

Thursday, 27 January 2022

Based on the reading: [Schacter, D., L., Addis, D., R., & Buckner, R., L. \(2007\). Remembering the past to imagine the future: the prospective brain. Nature Reviews: Neuroscience, 8, 657-661.](#)

GROUP X

Members:

What is the paper's main thesis?

What are the pieces of evidence that support the claim made in the thesis statement?

What is the significance of the thesis? How do you think this significance can be extended to how we process our day to day experience?
