

PSYCH 1140 - Thesis statement

Tuesday, 1 February 2022

Based on the reading: [Zacks J.M. & Swallow K. M. \(2007\). Event Segmentation. *Current Direction in Psychological Science* 16\(2\), 80-84.](#)

GROUPX

Members:

Prompt 2: Break out into groups, discuss and write the main claim this review paper is trying to convey (5 minutes). Return to the main room when done.

[write what your group has discussed here]

Prompt 4: Break out into groups, discuss and write (5 minutes):

- The main conclusion of the paper
- The implication of this paper

[write what your group has discussed here]

Prompt 5: Stay in your groups, discuss and write: considering the main claim of the paper, conclusion and implications gathered from the introduction and conclusion, what do you expect to see in the main text body? Try to be as detailed as you can in writing your expected points (5 minutes). Return to the main room when done.

[write what your group has discussed here]

Prompt 6: Regroup, try to look for one of the points you've listed as expected points in the main text body. What did the authors actually say? (7 minutes). Return to the main room when done.

[write what your group has discussed here]
